

## INFORMATION SHEET

Parent Project Voyage

10 -12 April 2017

The Leeuwin Foundation and Relationships Australia WA have joined forces to create an **extraordinary and unique family voyage** experience.

Our experienced facilitators from Relationships Australia will support you to **strengthen your family connections and increase the flow of communication**, in a safe and fun environment.

There is no doubt negotiating the teenage years can sometimes be challenging, and occasionally even overwhelming. Staying connected as a family and keeping the lines of communication open are essential to having a healthy and happy family.

Join us on board to learn a range of skills that will help improve your family communication and build strong relationships - all the while enjoying the thrills and adventure of life at sea aboard WA's very own tall-ship, the *STS Leeuwin II!*

The voyage may be only three days but we promise you an unforgettable family adventure and memories that will last a lifetime.

This family voyage experience is open to children aged 12+, with one or two parents or carers.
